**Degree Programme in International Business 210 op**

Revised 25 August 2009

# DEGREE PROGRAMME IN INTERNATIONAL BUSINESS

**Lahti University of Applied Sciences**  
**Faculty of Business Studies**

## **Degree**

Tradenomi, Bachelor of Business Administration (BBA)

## **Duration**

210 ect, 3.5 years

## **Learning objectives**

The studies are focusing to developing experts with generic working life competencies as well as programme based competences, that are needed to manage versatile demanding tasks in the future business life. Generic competences are communication and co-operation skills, abstract, analytical and critical thinking, research and development skills, entrepreneurial thinking, learning skills and self-efficacy as well as ethical responsibility. Degree Programme for International Business puts emphasis especially on international business environment awareness, intercultural adaptability and communication skills as well as international operations management.

## **Objectives**

The programme aims at providing the students with the qualifications and skills needed to work independently, creatively and effectively in positions requiring expertise in international business management and logistics.

This work requires solid knowledge of the international theories of economy. At the same time the programme has a practical orientation: students will have 30 ect of practical training during their time of studies. One objective of the programme is to give the students an education well balanced between theory and practise.

The programme emphasises the international aspect and the importance of language skills. Graduates will easily adapt to work with people from different countries, as they are trained to understand other business cultures. As most of the courses are given in English, students have a unique opportunity to improve their language skills while studying in Finland. The exchange students will be attending the courses given in English, giving their own input to the international atmosphere.

The Faculty of Business Studies of Lahti University of Applied Sciences has exchange with over 30 universities around the world and all students have either to work or study abroad.

The common basic studies form a basis on which all professional and optional studies are constructed. They aim at offering the students a common ground in their studies and at preparing them for working life and self-development.

The common basic studies orientate the students towards other studies which concentrate on specialised professional skills. Common basic studies, 14 ects, consist of courses which are compulsory to all native Finnish students. Any course within the common basic studies can be compensated by an equivalent course with entirely or partially same content taken in another university. Before compensation a proof for taking the course elsewhere must be submitted.
